SUMMARY

B.Tech Computer Science student (Graduating 2027) with strong technical skills and innovation. Backed by academic excellence, internship experience, and continuous learning across diverse tech domains.

INTERNSHIPS

Manufacturing Intern, Avishkaran Industries Pvt Ltd

- Assisted in electronics manufacturing of earpods and speakers.
- Supported assembly, testing, and quality control processes.
- Gained hands-on exposure to real-world production workflows.

EDUCATION

Diploma - Electronic Communication Engineering, *Government Polytechnic for Women, Guntur*

B.Tech - Computer Science Engineering, *International School of Technology and Sciences for Women*

SKILLS

- | | |
|-----------------|-------------------------|
| • HTML | • CSS |
| • JavaScript | • C |
| • Python | • Computer Fundamentals |
| • NumPy, Pandas | • Matplotlib, Seaborn |

PROJECTS

Bluetooth Home Automation

Created a smart home automation system to control appliances via Bluetooth. Gained experience in embedded systems, IoT, and hardware-software integration.

Credit Card Fraud Detection

Developed a machine learning model to detect fraudulent credit card transactions using imbalanced data, achieving reliable performance with precision and recall metrics. Built and deployed a real-time fraud prediction web app using Streamlit with feature scaling and model persistence.
